

Conduit Kit

Submittal Sheet

A Western Tube Conduit Kit consists of a pre-assembled section of EMT with a coupling, helping to save time and labor when installing long runs of EMT on-site. Unlike other integrated coupling products, Conduit Kits provide flexibility: Leftover pieces can be taken apart and reused. Conduit Kits are available with steel set screw or compression couplings in trade sizes 2, 2½, 3 and 4.

Listing

Western Tube EMT is UL® Listed to UL-797. It is manufactured in accordance with ANSI® C80.3 and federal specification WW-C-563, and it complies with CSA C22.2 No. 83.1. Conduit Kit couplings are UL Listed to UL-514B, and the assembly itself is UL Listed to UL-183.

Locations

Western Tube EMT and Conduit Kits are approved per National Electrical Code® Article 358 for open, concealed and concrete slab installations. Western Tube EMT is compatible with all types of building materials.

Testing

Western Tube performs regular tests of its EMT for weld strength, bendability, plating thickness, all dimensions, and uniform smoothness of the interior coating.

Coatings

Western Tube EMT is in-line galvanized to prevent chipping, cracking and peeling, and a special transparent secondary coating provides further protection against corrosion.

Additionally, Western Tube applies a special polymer ID coating that has low friction to speed up wire installation.

Conduit Kit Weights and Specifications

Trade Size	Metric Designator	Nominal OD	Nominal ID	Nominal Wall Thickness	Nominal Wt. per Foot	Qty. in Master Bundle	Feet in Master Bundle	Nom. Wt. per Master Bundle
	mm	in.	in.	in.	lbs.	qty.	ft.	lbs.
2	53	2.197	2.067	0.065	1.53	52	520	800
2½	63	2.875	2.731	0.072	2.30	33	330	760
3	78	3.500	3.356	0.072	2.82	33	330	930
4	91	4.500	4.334	0.083	4.18	27	270	1130

Master bundle quantities conform to NEMA Standard RN-2. All Western Tube conduit is UL Listed.
