**Call 800.310.8823 to  
find a location near you.**

# WESTERN TUBE'S ELECTRICAL PRODUCTS

## Electrical Metallic Tubing (EMT)

Quality You Can Trust

Western's American-made EMT is manufactured with the highest quality standards and corrosion protection.

- Trade sizes: ½-4
  - Lengths: 10', 20'
  - Available in 8 vivid colors
- 

## Rigid Metal Conduit (RMC)

Exceptional Strength and Corrosion Resistance

Western's hot-dip galvanized RMC is easy to bend, cut and thread on the job, yet strong enough to withstand challenging physical environments. It's all made in America.

- Trade sizes: ½-6
- Lengths: 10'

## Intermediate Metal Conduit (IMC)

A Lighter Wiring Solution With Strong Protection

IMC is a cross between EMT and RMC. With a slightly thinner gauge than RMC, Western's American-made IMC is light but strong.

- Trade sizes: ½-4
- Lengths: 10'

## Rigid Aluminum Conduit (RAC)

A Light, Corrosion-resistant Wiring Solution

Made in America from marine-grade alloy, Western's RAC is designed to provide decades of reliable service for dry, wet, exposed, concealed and hazardous locations.

- Trade sizes: ½-6
- Lengths: 10'

# TIME-SAVING ELECTRICAL PRODUCTS

### SMARTCOMPRESSION™ EMT

EMT with pre-attached compression fitting for faster installation.

- Trade sizes: 2-4
- Lengths: 10', 20'

### SMARTSET™ EMT

EMT with built-in set screw coupling to help contractors work smarter.

- Trade sizes: 1¼-4
- Lengths: 10', 20'
